### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art of record teaches a liquid crystal display comprising: a first insulating substrate including a display area and a peripheral area located outside the display area; a plurality of signal lines provided on the first substrate; and a plurality of first pixel electrodes electrically connected to the signal lines and located in the display area, each first pixel electrode including a first transparent electrode and a second reflective electrode. The prior art of record does not teach nor suggest, in combination with the limitation above, a second pixel electrode electrically connected to the signal lines and located in the peripheral area, the second pixel electrode including a first transparent electrode and a second reflective electrode having an area larger than the first reflective electrode.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert H. Kim can be reached on 571-272-2293. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
